Product Change Notification – CUA-XXX

Reference:
PCN191101-CUA-XXX

Date:
01-Nov-2019

Product Category:
Control board CUA-XXX (XXX: USB, ETH) with serial number from **SN 20000 onwards**

Notification Subject:
In order to use the boards, download the latest software from website :

www.newson.be/Downloads.htm
→ Tools → Software

Reason for change:
Obsoleteness of the flash component. This component is replaced by a similar flash component, that uses a different instruction set. The software (rhothor.dll/config.exe) is extended to support the new flash device while maintaining compatibility with the previous one.

Download and install the latest software prior to using said CUA-XXX control boards. If your company's strategy doesn't allow software updates, please mail us your rhothor.dll/config.exe versions. When possible, we will patch them free of charge.
