## Product Change Notification - ELA-TR4-4G-CFGXXX

### Reference:

PCN221010-ELA-TR4-4G

### Date:

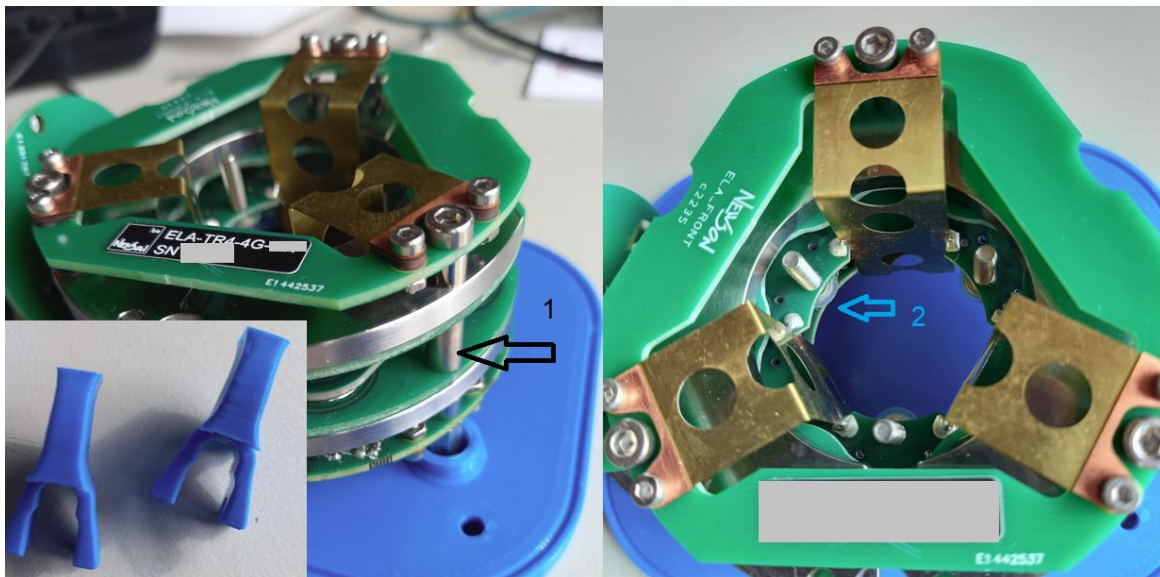

10-Oct-2022

### Product Category:

ELA-TR4-4G actuators produced from september 2022 onwards

### Notification Subject:

1. Custom drilled hexagon standoffs have been replaced by standard round standoffs in order to simplify production. New fix tools are available which align around the round standoffs.
2. The 3 screws used to mount the moving lens are not sealed anymore into the PCB. This alteration eliminates possible evaporation of the adhesive onto the optics.

Both changes have no impact on the dynamics of the actuator
